

Financial Tear Sheet

Corporate Profile

Uroplasty, Inc. is a global medical company committed to offering transformative treatment options to specialty physicians. Our products are designed to help providers change the lives of their voiding dysfunction patients and strengthen the efficiency of their practices.

Uroplasty products are typically used when a patient's treatment goals are not met after conservative and/or drug therapies. Providers and patients alike appreciate that Uroplasty products provide low-risk, effective alternatives to invasive surgery. And because these treatments can be delivered in an office or outpatient setting, the end result is that more patients are given the opportunity to transform their lives with successful treatment.
